

**National ComNet
Services, Inc.**

Products & Services Portfolio

Why NCS?

As your single point of contact with Verizon, we design and deliver customized business communication solutions at no cost to you. Whether you need simple voice and data services or more advanced VoIP and VPN services, NCS is your Verizon expert...

- ✓ Designing voice and data networks that improve your operations – saving you time and money
- ✓ Deploying leading edge products and services that help you beat the competition
- ✓ Providing worry-free installations, project management and 24 x 7 service

From initial planning through the life cycle of every service we install, we'll help you get the most from your investment. NCS is a partner you can count on.

“ We help you get the most from your voice and data networks so you can grow your business.”

Ray Lormel
VP of Sales Northeast, NCS
