

Company Overview

PowerNet Global Communications is one of the fastest growing telecommunications companies in the United States and was awarded the Inc. 500 private business award for one of the fastest growing and leading private companies in the country. PowerNet Global boasts a management team composed of telecommunications industry veterans, most of whom have 15+ years experience in the competitive telecommunications business.

Operating as a \$100 million company and growing, PowerNet Global is a dynamic integrated telecommunications service provider offering leading-edge technologies and aggressive International rates to its customer base. Through the commitment and dedication of the agents and customers it serves, PowerNet Global continues to increase the quality and scope of services for its carriers, business and residential customers.

Built from a foundation of integrity and strong business ethics, PowerNet Global Communications “PNG” was established in 1992 in the basement of President and CEO Bernie Stevens’ Cincinnati home. A pioneer of value-oriented communications services as primarily a reseller of residential long distance to agents and affinity groups, PNG has matured to become a full-service provider of integrated voice, data, and Internet solutions to both residential and commercial customers.

PowerNet Global upholds strong values in the telecom industry by delivering the highest quality, reliability and service at a competitive price, and ensuring that the customer is always number one and that its agents always maintain competitive rates and high commissions. By maintaining its focus on customer satisfaction and leading-edge technologies, PowerNet Global is changing the way people think about their service providers.
